Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. This is the Final Office Action from the examiner in charge of this application in response to applicant's amendment dated 7/11/2005.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 6-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 6, the term "offsetting" is vague, thus indefinite for failing to clearly define the "offsetting" of which element(s).

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 6-10 stand rejected under 35 U.S.C. 102(b) as being anticipated by USP 4,606,112 to Jenkins et al.

Jenkins et al discloses a refrigerating appliance comprising all the elements recited in the above listed claims including, such as shown in Figs 5-6, a foam-filled hollow body having a wall 27 including an opening 50 formed therein, a reinforcing bar 16 having a hole 55 formed therein and disposed with said hole overlapping said opening 50 of the wall 27, a destructible layer 48 disposed between said wall 27 and

Art Unit: 3637

said reinforcing part 16, said wall 27 and said reinforcing part 16 being connected to each other by a connection 60 (wherein the connection point being defined as one of the two openings 50 shown in Fig 3), wherein said connection extends through said destructible layer 48, and said connection is a rivet connection, and said opening 50 is disposed on a front side of said housing and is provided for mounting a hinge (col. 6, lines 56-61.).

Response to Arguments

6. Applicant's arguments filed 7/11/2005 have been fully considered but they are not persuasive. In response to applicant's argument on page 7 that "these preformed openings in the metal strips cannot be the claimed "destructible layer" which is formed to cover the openings and is so claimed", the examiner takes the position that Office action never stated that the openings in the metal strips/destructible layer being the claimed "destructible layer", and the claimed language fails to clearly point out that the destructible layer covers the openings.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 3637

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
